- ❖ **FEDERAL APPLICATION FOR FINANCIAL STUDENT AID (FAFSA):** Since filing the Free Application for Federal Student Aid (FAFSA) is required to receive federal aid for college, this is one of the most important steps you can take to help your family pay for college. What happens after we file the FAFSA? After completing the FAFSA, the Department of Education will provide you with an Estimated Family Contribution. This value helps determine how much financial aid your student may receive in the form of grants, loans and work experiences. When should we file? Even if you do not plan to take out student loans, file a FAFSA as soon as possible. Many students qualify for some federal aid. Priority consideration for federal, state and institutional funds is given to students who submit a FAFSA by February 15. Watch this short video for any questions on FAFAS:
